Finland.....	43
Sweden.....	44
United Kingdom.....	45

## Legenda:

This document is based on the European Commission DG Budget documents "Allocation of 2005 EU expenditure by Member State", "EU budget 2006 financial report" and "Detailed data 2000-2006". The data covers the countries that were Member States at the time.

Summary **table 1** in **Part 1** presents the allocation of EU Budget expenditure by Member State in 1992 - 2006. In 2006 the largest shares of expenditure (more than 10% of total) were allocated to France (14%), Spain (13%), Germany (13%) and Italy (11%). Whereas these four countries together accounted for 53,5% in 2005, they accounted for 50,9% in 2006. The smallest shares (below 1%) were allocated to Lithuania (0,8%), Slovakia (0,7%), Slovenia (0,4%), Latvia (0,4%), Estonia (0,3%), Cyprus (0,2%) and Malta (0,2%).

Member States' total own resources payments to the EU budget are shown in **table 2**. The largest total own resources payers (more than 10% of total) to the EU budget were Germany (20%), France (16%), Italy (13%) and the United Kingdom (12%). The smallest shares (below 1%) were paid by Hungary (0,8%), Slovakia (0,4%), Slovenia (0,3%), Luxembourg (0,2%), Lithuania (0,2%), Latvia (0,2%), Estonia (0,1%), Cyprus (0,1%) and Malta (0,05%).

**Table 3** and **Chart 1** show the allocation of expenditure by Member State and by Financial Perspective heading in 2006, in millions of Euro.

**Charts 2 - 6** show how the expenditure in the Financial perspective headings was shared out among the Member States in 2006, as a percentage of total expenditure in that heading. The recipients of the largest shares (more than 10% of the total for the heading concerned) were:

- Agricultural expenditure: France (20%), Spain (13%), Germany (13%) and Italy (11%);
- Structural actions: Spain (18%), Italy (14%), Germany (14%) and Greece (11%);
- Internal policies: Germany (15%), United Kingdom (11%), Belgium (11%), Italy (10%) and France (10%);
- Administrative expenditure: Belgium (60%) and Luxembourg (17%);
- Pre-accession strategy/aid and Compensations: Poland (48%) and the Czech Republic (16%).

Member States' operating budgetary balances (**table 4** and **chart 7**) reveal the difference between the Member States' contributions and the amounts of allocated expenditure received in 1992 - 2006. Operating budgetary balances are expressed in absolute terms and relative to GNI. In 2006 the largest EU net contributors (more than 1 billion EUR) in absolute terms were Germany (6,3 billions EUR), France (3,1 billions EUR), the Netherlands (2,6 billions EUR), the United Kingdom (2,1 billions EUR) and Italy (1,7 billions EUR). The largest net recipients (more than 1 billion EUR) were Greece (5,1 billions EUR), Spain (3,8 billions EUR), Poland (2,9 billions EUR), Portugal (2,2 billions EUR), Hungary (1,1 billions EUR) and Ireland (1 billion EUR). As a per cent of GDP the largest contributors (more than 0,2%) were the Netherlands (0,47%), Sweden (0,28%), Germany (0,27%), Denmark (0,23%) and Belgium (0,23%), and the largest recipients (more than 2%) were Greece (2,68%), Lithuania (2,52%) and Malta (2,09%).

In **chart 8** operating budgetary balances in EU-25 in 1992, 1998, 2005 and 2006 are compared. Most of the Member States remained net recipients compared to beneficiaries. Positive balances decreased sharply in Greece since 2005 and in Ireland and Portugal since 1992. Over the period 2005-2006 they increased in the Czech Republic, Cyprus, Lithuania, Hungary, Poland, Slovenia, Slovakia and Malta.

**Table 5** and **charts 8 - 10** present national contributions per capita and as a per cent of GDP in 2006. Contributions as % of GDP were the highest (more than 1%) in Belgium (1,31%), the Netherlands (1,15%), Cyprus (1,05%), Spain (1,00%), and Denmark (1,00%) and the lowest (less than 0,9%) in Portugal (0,89%), Denmark (0,88%), Hungary (0,87%), Sweden and Greece (0,86%), Ireland (0,85%), the United Kingdom (0,65%) and Luxembourg (0,64%).

Contributions to the EU budget per capita per day were the highest (more than 1 EUR) in Luxembourg (1,27 EUR), Denmark (1,11), Belgium (1,08 EUR), and the Netherlands (1,03 EUR). The lowest (less than 20 cents) were in Lithuania and Latvia (0,19 EUR) and Poland (0,18 EUR).

**Chart 11** shows Member States' contributions and allocated expenditure as a per cent of the whole EU budget.

The tables in the **Part 2** show the allocated EU budget expenditure for each Member State during the 7 year period (2000-2006). The graphs show how the amount of allocated expenditure changed from 2000 to 2006 (2004 to 2006 for EU-10). Pie charts show the structure of allocated expenditure in 2006.

NOTES

- The columns 'Pre-accession strategy' and 'External action' only includes expenditure allocated for Malta, Cyprus, Czech Republic, Estonia, Latvia, Lithuania, Hungary, Poland, Slovenia and Slovakia. The rest of 'Pre-accession strategy' and 'External action' expenditure is by definition non-allocated.

- 'Export refunds' are allocated to the Member State from which the goods leave the Union. This convention might overestimate payments to Member States with major ports such as Belgium, Denmark and the Netherlands to the extent that the recipient of the refund is not a local trader.

- Belgium and Luxembourg benefit from the large number of multinational consultancies or ad-hoc companies based in these countries. Payments made by the Commission to these companies might ultimately be paid to subsidiaries or parent companies located outside Belgium and Luxembourg. It is extremely difficult to identify where the final beneficiary of these payments is located.

NOTES

- This Table is based on Commission Table 6 in document "Allocation of 2005 EU expenditure by Member State" and "EU budget 2006 financial report" annex 5

- The operating budgetary balance of each Member State is established by calculating the difference between the operating expenditure (i.e. excluding administrative expenditure) allocated to each Member State, and the national contribution of each Member State (excluding Traditional Own Resources). For full details of the methodology used and numerical example, see page 137 in Commission document "Allocation of 2005 EU expenditure by Member State" or "EU budget 2006 financial report" annex 5.

- Series as a percentage of GNI are calculated on the basis of GNI data detailed in table 5 of Commission document "Allocation of 2005 EU expenditure by Member State" and "EU budget 2006 financial report" annex 5 for the year 2006.

NOTES from Commission document "Detailed data 2000-2006"

- Export refunds are allocated to the Member State from which the goods leave the Union. Taking into account the importance of Antwerp as an export gateway for agricultural products from other Member States this convention probably overstates Belgium's benefits from this type of expenditure, since the recipient of the refund is not necessarily a local trader. 12.7 % of total EU expenditure for sub-heading "Export refunds" in 2005 is allocated to Belgium alone, while Belgium's share of EU agricultural output and EU agricultural gross value added is much lower. The same situation applies to Denmark with Copenhagen and to the Netherlands with Rotterdam.
- Internal Policies expenditure allocated to Belgium might be inflated due to the large number of multinational consultancies or ad-hoc companies based in Brussels. EU expenditure to these companies might actually be paid ultimately to parent companies.
- The relatively high amount for Belgium under 'Other internal policies' since 2004 is notably due to high EU expenditure in the area of Transport for the set up of: the European Aviation Safety Agency ( € 11.5 million in 2004); the European Maritime Safety Agency (€ 12.8 million in 2004, € 16.0 million in 2005 and € 5.5 million in 2006); the European Railway Agency for Safety and Interoperability ( € 2.3 million in 2005) and the Galileo Supervisory Authority (€ 7.1 million in 2006).
- The following Community expenditure concerning the Galileo programme have been removed from the amounts allocated to Belgium and considered as unallocated: € 222.0 million in 2006, € 156.0 million in 2005, € 165.8 million in 2004 and € 120.0 million in 2002 under 'Trans-European Networks' and € 5.2 million in 2006, € 35.0 million in 2005, € 53.5 million in 2004 and € 13.3 million in 2003 under 'Research and technological development'.
- For structural and cohesion funds, implementation depends on the pattern of submission of payment request and it is not usual to see large swings in EU expenditure from one year to the other, such as for Belgium under 'Objective 3' in 2003 (low amount of € 17.4 million).

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The relatively high amounts since 2004 for the Czech Republic under 'Other rural development' correspond to the 'Transitional Instrument for the financing of rural development by the EAGGF Guarantee Section for the new Member States'.

- The relatively high amounts since 2004 for the Czech Republic under 'Education, vocational training and youth' correspond mainly to the participation in the programmes Socrates, Leonardo da Vinci and Youth.

- The relatively high amount in 2005 for the Czech Republic under 'Other internal policies' corresponds mainly to the 'Transition facility for institution-building after accession'.

- The implementation of structural funds payments did not increase between 2004 and 2005 and remained at a low level depending on the pattern of submission of payment request and it is not usual to see large swings in EU expenditure from one year to the other, such as for the Czech Republic in 2005 (low amount of € 151.6 million)

NOTE from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- Export refunds are allocated to the Member State from which the goods leave the Union. Taking into account the importance of Copenhagen as an export gateway for agricultural products from other Member States, this convention probably overstates Denmark's benefits from this type of expenditure, since the recipient of the refund is not necessarily a local trader. 6.7 % of total EU spending under "Export refunds" in 2005 is allocated to Denmark alone, while Denmark's share of EU agricultural output and EU agricultural gross value added is much lower. The same situation applies to Belgium with Antwerp and to the Netherlands with Rotterdam.

- The amount for Denmark under 'Environment' includes the annual funding of the 'European Environment Agency', located in Copenhagen.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- Germany had a share of 15.7% in total EU agricultural spending in 2002 (compared to 13.2% in 2003 and 14.1% in 2001). This peak was related to some €550.0 million in direct aids for arable crops (marketing year 2002/2003) that were brought forward from 2003 to 2002 to support farmers affected by the flooding in Germany in 2002.

- Similarly, Germany had a share of 61.8% in total EU spending under 'Other internal policies' in 2002. This peak was due to €444.0 million allocated to Germany under the EU Solidarity Fund to alleviate the effects of the flooding in 2002.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The relatively high amounts since 2004 for Estonia under 'Other rural development' correspond to the 'Transitional Instrument for the financing of rural development by the EAGGF Guarantee Section for the new Member States'.
- The relatively high amounts since 2004 for Estonia under 'Education, vocational training and youth' correspond mainly to the participation in the programmes Socrates, Leonardo da Vinci and Youth.
- The relatively high amounts since 2004 for Estonia under 'Other, consumer protection, internal market & industry' correspond mainly to the participation in the 'Schengen facility' programme.
- The relatively high amount in 2005 for Estonia under 'Other internal policies' corresponds mainly to the 'Transition facility for institution-building after accession'.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- In 2003, EU expenditure to Greece under the Cohesion Fund was extremely low (€40.1 million), mainly because many intermediate payment requests failed to be submitted as relevant project and control data were not available in the management information system. This situation is resolved since 2004.

- The amount for Greece under 'Education, vocational training and youth' comprises the annual funding of the 'European Centre for the Development of Vocational Training', located in Thessalonica.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The amount for Spain under 'Other, culture, media, information & other social operations' comprises the annual funding of the 'European Agency for Safety and Health at Work', located in Bilbao.
- The amount for Spain under 'Other, consumer protection, internal market & industry' comprises the annual funding of the 'Office for the Harmonization in the Internal Market', located in Alicante.
- Spain has a share of 8.1% in total Community expenditure under 'Other internal policies' in 2004. This peak is mainly due to 10.0 million allocated to Spain under the EU Solidarity Fund to alleviate the effects of forest fires in 2003.
- For structural and cohesion funds, implementation depends on the pattern of submission of payment request and it is not usual to see large swings in EU expenditure from one year to the other, such as for Spain in 2006 (amount of 5767.0 million)

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- France is the biggest beneficiary of Community agricultural expenditure (20.7% of EU total in 2005, a share close to France's share in EU agricultural output and gross value added).

- The relatively high level of Community administrative expenditure allocated to France in 2001 and 2002 is mainly due to payments in respect of the building of the European Parliament in Strasbourg.

- France has a share of 10.8% in total Community expenditure under 'Other internal policies' in 2004. This peak is mainly due to 19.6 million allocated to France under the EU Solidarity Fund to alleviate the effects of forest fires & flooding in 2003.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The amount for Ireland under 'Other, culture, audiovisual media, information and other social operations' comprises the annual financing of the 'European Foundation for the Improvement of Living and Working Conditions', located in Dublin.

- In accordance with the corresponding legal framework, 33% of the Community financing to the 'International Fund for Ireland' is allocated to Ireland (under 'Other internal policies') and 67% to the United Kingdom.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The amount for Italy under 'Research and technological development' comprises the annual financing of the 'Joint Research Centre' in Ispra.

- Italy has a share of 20.5% in total Community expenditure under 'Other internal policies' in 2004. This peak is mainly due to 47.6 million allocated to Italy under the EU Solidarity Fund to alleviate the effects of flooding in 2003.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The relatively high amounts since 2004 for Cyprus under 'Other rural development' correspond to the 'Transitional Instrument for the financing of rural development by the EAGGF Guarantee Section for the new Member States'.
- The relatively high amounts since 2004 for Cyprus under 'Education, vocational training and youth' correspond mainly to the participation in the programmes Socrates, Leonardo da Vinci and Youth.
- The relatively high amount in 2005 for Cyprus under 'Other internal policies' corresponds mainly to the 'Transition facility for institution-building after accession'.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The relatively high amounts since 2004 for Lithuania under 'Other rural development' correspond to the Transitional Instrument for the financing of rural development by the EAGGF Guarantee Section for the new Member States.
- The relatively high amounts since 2004 for Lithuania under 'Education, vocational training and youth' correspond mainly to the participation in the programmes Socrates, Leonardo da Vinci and Youth.
- The relatively high amounts in 2004-2006 for Lithuania under 'Energy, Euratom nuclear safeguards' correspond to the financing of the Ignalina nuclear plant decommissioning fund.
- The relatively high amounts since 2004 for Lithuania under 'Other, consumer protection, internal market & industry' correspond mainly to the participation in the 'Schengen facility' programme.
- The relatively high amount in 2005 for Lithuania under 'Other internal policies' corresponds mainly to the 'Transition facility for institution-building after accession'.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- Internal Policies' expenditure allocated to Luxembourg might be inflated due to the large number of multinational consultancies or ad-hoc companies based in Luxembourg. EU expenditure to these companies might actually be paid ultimately to parent companies or subsidiaries located outside Luxembourg. It is not always possible to identify the location of the final beneficiary of such expenditure. The same situation applies to Belgium.

- The amount for Luxembourg under 'Other, consumer protection, internal market & industry' comprises the annual financing of the Publication Office of the European Communities (OPOCE), located in Luxembourg.

- On the basis of additional information available to the Commission services, the amount for the 'Programme for SMEs' and 'Completion of the Employment initiative' allocated to Member States (mainly to Luxembourg) have been removed and considered as non-allocated. The impact is a decrease by respectively € 77.9 million in 2005 € 59.5 million in 2004 for the 'Programme for SMEs' and by € 19.7 million in 2004 for the 'Completion of the Employment initiative'.

NOTE from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- Export refunds are allocated to the Member State from which the goods leave the Union. Taking into account the importance of Rotterdam as an export gateway for agricultural products from other Member States, this convention probably overstates the Netherlands' benefits from this type of expenditure, since the recipient of the refund is not necessarily a local trader. 14.1 % of total EU spending for sub-heading "Export refunds" in 2005 is allocated to the Netherlands alone, while the Netherlands' share of EU agricultural output and EU agricultural gross value added is much lower. The same situation applies to Belgium with Antwerp and to Denmark with Copenhagen.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- Austria has a relatively high share in Community expenditure under 'Less-favoured areas' and 'Agri-environment measures'.

- Austria had a share of 18.6% in total Community expenditure under 'Other internal policies' in 2002. This peak was due to €134.0 million allocated to Austria under the EU Solidarity Fund to alleviate the effects of flooding in 2002 and €14.8 million allocated in 2006.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The relatively high amounts since 2004 for Poland under 'Other rural development' correspond to the 'Transitional Instrument for the financing of rural development by the EAGGF Guarantee Section for the new Member States'.
- The relatively high amounts since 2004 for Poland under 'Education, vocational training and youth' correspond mainly to the participation in the programmes Socrates, Leonardo da Vinci and Youth.
- The relatively high amount since 2004 for Poland under 'Other, consumer protection, internal market & industry' correspond mainly to the participation in the 'Schengen facility' programme.
- The relatively high amount for Poland in 2005 under 'Other internal policies' corresponds mainly to the 'Transition facility for institution-building after accession'.
- The negative amount under 'Storage' in 2004 for Poland (- €24.3 million) corresponds to interventions on storage for cereals, rice and for butter and cream.
- The implementation of structural funds payments did not increase between 2004 and 2005 and remained at a low level depending on the pattern of submission of payment request and it is not usual to see large swings in EU expenditure from one year to the other, such as for Poland in 2005 (low amount of € 787.0 million)

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The amount for Portugal under 'Other, consumer protection, internal market & industry' includes the financing of the 'European Monitoring Centre for Drugs and Drug Addiction', located in Lisbon.

- Community expenditure to Portugal under 'Other internal policies' reached €51.7 million in 2003. This peak is due to a €48.5 million payment made under the EU Solidarity Fund to alleviate the devastating effects of drought and forest fires in Portugal in 2003.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The relatively high amounts since 2004 for Slovenia under 'Other rural development' correspond to the 'Transitional Instrument for the financing of rural development by the EAGGF Guarantee Section for the new Member States'.
- The relatively high amounts since 2004 for Slovenia under 'Education, vocational training and youth' correspond mainly to the participation in the programmes Socrates, Leonardo da Vinci and Youth.
- The relatively high amounts since 2004 for Slovenia under 'Other, consumer protection, internal market & industry' correspond mainly to the participation in the 'Schengen facility' programme.
- The relatively high amount for Slovenia in 2005 under 'Other internal policies' corresponds mainly to the 'Transition facility for institution-building after accession'.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- The relatively high amounts since 2004 for Slovakia under 'Other rural development' correspond to the 'Transitional Instrument for the financing of rural development by the EAGGF Guarantee Section for the new Member States'.
- The relatively high amounts since 2004 for Slovakia under 'Education, vocational training and youth' correspond mainly to the participation in the programmes Socrates, Leonardo da Vinci and Youth.
- The relatively high amounts in 2004 and 2005 for Slovakia under 'Energy, Euratom nuclear safeguards' correspond to the financing of the Bohunice nuclear plant decommissioning fund.
- The relatively high amounts since 2004 for Slovakia under 'Other, consumer protection, internal market & industry' correspond mainly to the participation in the 'Schengen facility' programme.
- The relatively high amount for Slovakia in 2005 under 'Other internal policies' corresponds mainly to payments under the 'EU solidarity fund' to alleviate the effect of storms in 2004 and to the 'Transition facility for institution-building after accession'.

NOTES from Commission document "Allocation of 2005 EU expenditure by Member State" and "Detailed data 2000-2006"

- Structural funds payments to the United Kingdom in 2005 (as in 2000) are particularly high as compared to the period 2001-2004. Such variations are not unusual and depend on the time-pattern of payment requests.
- In accordance with the corresponding legal framework, 67% of the Community financing to the 'International Fund for Ireland' is allocated to the United Kingdom (under 'Other internal policies') and 33% to Ireland.
- The amount for the United Kingdom under 'Other, consumer protection, internal market & industry' comprises the annual funding of the 'European Agency for the Evaluation of Medicinal Products', located in London.
